### Building A Structure : Final Carbon Cycle Model

---

Teacher Name: **Ms. Rudenberg**

Student Name: \_\_\_\_\_

CATEGORY	10-8	7-5	4-3	2-0
<b>Content</b>	The Final model contains information from all 3 lessons, The carbon cycle, chemical reactions and thermodynamics.	The Final model contains most of the information from all 3 lessons, The carbon cycle, chemical reactions and thermodynamics.	The Final model contains some of the information from all 3 lessons, The carbon cycle, chemical reactions and thermodynamics.	The Final model contains minimal information from all 3 lessons, The carbon cycle, chemical reactions and thermodynamics.
<b>Format</b>	The information is presented in a clear and logical way.	The information is presented in a somewhat clear and logical way.	The information presented is not always clear and logical way.	The information presented is not clear and logical way.
<b>Template</b>	Students have used the template provided to create their cycle and have expanded on the images provided.	Students have used the template provided to create their cycle.	Students have attempted to use the template provided to create their cycle.	Students used parts or none of the template provided.
<b>Connections</b>	Students arrows and annotations show clear connections developed between the content in the lessons.	Students arrows and annotations show that some connections developed between the content in the lessons.	Students arrows and annotations show a minimal connections developed between the content in the lessons.	Students arrows and annotations are lacking or do not create logical connections between the content in the lessons.
